4. 研究集会の内容報告（活動報告書）

The International Conference on GeoInformatics for Spatial-Infrastructure Development in Earth & Allied Sciences (GIS-IDEAS) was held in conjunction with the PNC 2008 Annual Conference and ECAI (Electronic Cultural Atlas Initiative) at Hanoi University of Technology in Hanoi, Vietnam, 4-6 December 2008. GIS-IDEAS 2008 was organized by JVGC in cooperation with Hanoi University of Mining and Geology (HUMG). GIS-IDEAS 2008 is the fourth in the series of very successful GIS-IDEAS Conferences, with first and second being held in Hanoi, Vietnam in September 2002 and September 2004 and the third in HCMC in November 2006. The main theme of the GIS-IDEAS 2008 "Towards Sustainable and Creative Humansphere". Apart from Technical Sessions on Geoinformatics technology and applications, Special sessions on following topics were held.

- * Geoinformatics for Sustainable Use and Management of Natural Resources
- * Geoinformatics for Health
- * Open Source Geoinformatics
- * Open Standards for Spatial Data Infrastructure

* Area Informatics and Applications

* Climate Change

The GISIDEAS 2008 was also focused on development of spatial databases and analysis of spatial data for modelling and simulation of processes related to our natural, social and human environment. GIS-IDEAS 2008 not only aims to serve as a forum for scientific exchanges but also as a conduit for technology transfer through tutorial sessions.
